and then - - - along comes **THE ASSOCIATION**

STORY PAGE TWO

THE MONARCH

SAINT LEO COLLEGE No. 7 October 13, 1967

The student news medium and the organ of student opinion.

it's the LIVING END!

Black walls and a psychedelic atmosphere will greet the curious at the LIVING END, which opens Saturday, October 14th, from 8:00 p.m. to 1:00 a.m. The new coffee house, located at the boathouse lower floor promises the swining set live entertainment and dancing to a juke-box or occasionally a live band. Food for the soul may come in the form of poetry readings to guitar playing by Professor Gerald Wagner.

Refreshments will be sold to meet the appetite as well as the pocketbook.

Opening night will feature folksingers from Tampa, Jamie and Gracie Hackney. Budd Klein, Clift Anderson and Patty Mitchell.

The LIVING END will be open on Friday, Saturday, Sunday and Wednesday nights. Professor Wagner is acting advisor to organizers, Mrs. Marion Snyder and Senior Lynn McGrath.

Why not drop in on the action and see what's happening tomorrow night, starting at 8:00 p.m. ?

by Johanna Petrocia

SIGMA BETA SMOKER OPEN TO ALL MALE RUSHES

The brothers of Sigma Beta will hold their first Smoker on October 16. The second of this series will be held in the later part of October. We feel that the main purpose of our Smokers is to promote a better understanding of Sigma Beta and its' goals here at St. Leo. With this idea in mind, we would like to extend an invitation to all male rushes regardless of their choice of fraternity.

At one time Smoker meant a rail-road smoking car. At the turn of the century men were seldom allowed to smoke at their seats on a train. The smoking car offered a chance to relax and talk while having a good smoke. As the era of the smoking car came to an end, the word came to mean an informal gathering of males for the purpose of companionship and entertainment.

We are sorry that our Smokers will not offer entertainment above the speeches of Jack Schimpf and Bill Connalon. We hope that whatever is said at our Smoker will be worthwhile and informative to the rush. With this in mind, we would like to encourage any rush to step forward and ask questions or speak his piece.

We would like to impress upon the individuals rushing the importance of their decisions made at this time. The outcome of this rush program will affect you for the remainder of your stay here at St. Leo. This is a time for serious thought.

Note: If anyone does not believe that Bill Stavola is giving out free cigarettes, why don't you stop in and see for yourself?

ROLL UP YOUR SLEEVE — The Blood Bank's Back

We have been asked by Mr Harry Williams, Director of Saint Anthony's Blood Bank in St. Petersburg, Florida to solicit blood donors from our students, faculty, and staff. Mr. Williams informed me that Saint Anthony's urgently needs 6000 pints of blood in order to meet their increasing demands. In return for one acceptable pint of blood, the donor and family become members of the hospital's Blood Assurance Plan.

This Blood Assurance Plan covers the individual, his mother, father, brother, sister, grandparents and their children for one year, from the date they give in 1967 to the same date in 1968. This donation of one pint of acceptable blood allows you to get the necessary amount of blood if needed, to cover the above mentioned people for one year, inclusive from the date donated.

I have spoken to Mr. Mike Lannon, President of S.G.A., and he has informed me that S.G.A. will give a cash prize to the class with the biggest per centage of donors. There will also be a plaque given to the winning class, from Mr. Williams, Director of the Blood Bank.

We have set up the following dates for each class:
November 1,2,3,----Freshmen
November 7,8,---Sophomore
November 14,15---Junior
November 21, 22---Senior

The faculty members are also included in this contest. They will be notified of their time to donate through a faculty meeting.

A poster will be posted in the cafeteria to let each class know how they came out. Remember, the class with the biggest per centage of donors WINS!!!

Be prepared for the flood. The flood of sight and sound of the NOAH'S ARK. On October 27, 8:30 - 12:00 PM, the Varsity Club will present the NOAH'S ARK in the lower level of the Student Center.

Formed only 9 months ago the NOAH'S ARK are already nationally known recording artists with the nationwide hit " I Get All The Luck on the Decca label. Before the month is over the NOAH'S ARK will release their first LP, Noah's Ark Brings Down the House".

The ARK is sailed by Buddy Richardson on lead guitar, Bill Mann on bass and organ, and Bobby Caldwell winner of 16 medals for being one of the most distinguished drummers in the South, on drums.

The ARK has been on tour with such groups as the DAVE CLARK 5, the YOUNG RASCALS, and this month they were on tour with the BLUES MAGOO.

Recently while performing a 7 day engagement at the famed "Beachcomber" in Jacksonville, their audience jumped from 200 on the opening night to 1500 at their closing performance.

Their performance here will not only be a dance but an experience you will never forget. To express the full meaning of their songs; they make use of sight along with sound, Strobe and color lights, smoke bombs, dry ice, flares, and anything else needed to bring the dancers into the music.

You will never regret having spent $. 50 to see the NOAH'S ARK perform.

ROBERT JAMES DRUEKE

Rabbi To Lecture at Saint Leo

Rabbi David Susskind, of the Temple Beth El in St. Petersburg will lecture Monday evening at 7:30 in the Cafeeteria on "Modern Judaism. He will be available to answer questions after the lecture. Everyone is invited to attend the lecture and question and answer session.

TODAY IS THE LAST DAY TO PURCHASE TICKETS FOR THE ASSOCIATION CONCERT.

WHAT IN THE WORLD--

by Pete DeLuca

Castroism May Not Recover From Loss

National

Last Monday, Democratic National Chairman John M. Bailey accused Republicans of "an opportunist game" on Vietnam. He predicted President Johnson's popularity would rise to a height once the Republican Party is required to take a firm stand on the Vietnam war.

The Republicans were advised to moderate their criticism of the Administrations War Policy by Senator Hugh Scott of Pennsylvania. In a speech at the Senate meeting Senator Scott cautioned the members of his party against making their party into the "peace at any price" party.

Maybe we will see an agreement between the major parties of our nation. From this could come a solution to the Vietnam war.

Elections

According to a poll taken of the high ranking Republicans, Richard Nixon is the man they feel could win over LBJ. Although Nixon was the majority choice, the combination of Rockefeller and Regan is given the best chance of winning because it ties the two largest states together.

This seems like a contradiction and it is. Nixon by himself, could win, but put him with someone else and he would lose. On the other hand, Rockefeller or Reagan by themselves would lose. By combining these two, the Republicans could possibly win.

Washington

Miami Beach was a favorite as the scene of the Democratic convention until President Johson let it be known he liked Chicago better. The official vote was 10-0 for Chicago. The switch came hours before the official announcement was made.

It seems that Florida has lost again, but why would the Democrats move to support a Republican governor by "donating" all that money?

World

Bolivia-The body of a guerrilla shot to pieces by U.S. trained Bolivian Rangers was officially identified as Ernesto (Che) Guevara, the revolutionary sent underground by Fidel Castro to forment Red rebellion in South America.

Newsmen who saw the body said Guevara had been shot in the throat and groin and that his legs had been almost severed by machine gun fire.

Now that Castro's number one man has been killed, we may be able to see peace in South America. This, however is doubtful because Fidel will probably find someone else.

United Nations

Rich and poor nations of the U.N. have pledged increased contributions to the 1968 United Nations Development Program, which helps low-income countries attract foreign investment and technology.

The U.S. led the way in the contribution announcement by more than 100 countries with a pledge of $75 million dollars, an increase of $5 million of this year's level.

and then - - - along comes THE ASSOCIATION

Some people think musicians are weird, and many would think the ASSOCIATION weird.

Like Russ who spends his spare hours walking alone around the city...his favorite all-time job was running a merry-go-round because "people didn't bug me and I could think." And Ted who reminds himself to not be vain by placing a mirror so high above his apartment floor he can't see himself. Or Brian who's held 33 jobs in six years and is quite a philosopher. And Terry, who has enough credits for two degrees yet never graduated from college...and has also managed to learn 23 instruments. Or Gary who doesn't smoke, drink, or eat meat and would like to travel to India to"study the mystic religious life there." And happy-go-lucky Jim who almost became a Certified Public Accountant like his mother, until he began "freaking out in the music field" and hasn't added a column of figures since.

But then it's the creative people who keep the world from being one gigantic Dow Jones average...people like the Association who are really adding something worthwhile to today's music scene.

The Association has been called the first "show-rock" group around today-which means they can play bluer blues than the Rolling Stones: harder hard-rock than the Raiders, and put more folk into folk music than the Kingston Trio-and they still come out with their own unique sound. And they're one of the few groups who have worked up a funny, professionally tight act to entertain their audiences.

They've proven by this first album that they can write music as good-or better than anybody around today. Eight out of the twelve songs are written by The Association. I personally think "Cherish" is one of the most hauntingly beautiful love songs to come out of this Beatle era-or any other era. But just as many others prefer the lovely "Standing Still."

Whatever your choice one thing is certain, The Association will be on top of the music heap for a long time to come.

Phyllis Burgess, Entertainment Editor 'Teen Magazine.

SPOTLIGHT---

by Hoag and Smitty

Well here we go again. Surprised? We are. It got a little tense after the last time we placed a pen on a pad for this column. None the less, we're peddling more trash and radical ideas again this week, so just sit back and get sick or fall asleep. It will only hurt for a second.

Throughout the United States, students are being trained in a democratic process from kindergarden to their senior year in high school. Learning about the "Father" of our nation who never told a lie, about the "American Way", and about government of the people, by the people,etc. It seems to us that it is a shame that after twelve years of training for a democratic way of life, most students then proceed to further their education in a "communistic" society.

The average college community today is quite similar to societies that exist in nations behind the Iron Curtain. Don't get us wrong, we didn't say all colleges, there are a few exceptions such as Berkley and other large universities; however, in most institutions there exists a definite totalitarian policy be it benevolent or not. We are being prepared for a democracy in a dictatorial atmosphere.

Perhaps this is merely to show us how bad it really is, but we could not say. But bad or not it does exist today.

In order to show reasons for such a statement let us compare the policy making bodies and persons of authority in a college of this size with the policy making bodies and persons of authority in the Soviet Union

The number one 'honcho' in the U.S.S.R. is supposedly the Premier, and in the college community the similar position is held by the Chancelor. However, in reality both the Soviet Premier and the college Chancelor are merely figureheads and have mostly honorary power. The Premier presides at the opening of Congresses and usually performs speaking tasks at official banquets, etc. This can be paralleled by the Chancelor in his officiating role at degree granting exercises and other such programs.

As in the Soviet Union the real everyday power in a college is delegated to an apparent number two man. The Soviets call him the First Secretary and the collegiate term is President. The First Secretary of the Party and the President of the college are actually the powers. Being at the peak of administrative ladder,they give policy decisions to the lower officials.

The number one policy making body in the Russian State is the Presidiun, which is presided over by the First Secretary. On campus we again find the equivalent in the Board of Trustees, which incidentally has a seat held by the President of the college.

The second most powerful group in the red government is the Secretariat, which is headed by the First Secretary. This body directs the day by day activities of the Party and thus the masses. In college the Secretariat appears to be similer to the body of administrative officials(the combined Deans), who are appointed by the head of the college, the President. To an extent, the Deans direct the day by day lives of the student body (the masses), by controlling admissions and directing student affairs which include sign-in policies, dorm inspections, dress codes, etc.

Following the Secretariat on the power scale is the Central Committee, which in theory is a powerful body, but in practice it is dominated by Party members and the number one Honcho. It approves the policies of the First Secretary. In comparison, the faculty is an important body on campus, but dominated by the higher officials of the college. The faculty usually has no choice but to approve the policies of the President.

The least powerful body in the communist society is the Party Congress. In theory it is a powerful body, but in practice it is weak and meets irregularly. By approving all policies of the First Secretary, it acts as a "rubber stamp"

Again the parallel can be drawn to a campus body, the student government. Theoretically, a voice of the student body, yet in reality it acts merely as a pacifier for the "masses".

Many other comparative similarities could also be mentioned; however, due to the lack of space, they can not be brought to light. Since this is a "Democracy" Comrades, we believe that one important difference must be stated. This difference is freedom; the freedom to stand up for what you believe in.

TWO WAYS OF LIFE

Grievance Committee Report Reasons

The following report has been submitted to the MONARCH staff by the Student Government Grievance Committee. Below they have listed the various grievances of the Student Body followed by the reasons, as explained to them upon their investigations.

1. Laundry: The same fee is charged as in previous years although pick-up and delivery has been discontinued.
   Reason: Protection of the students from theft and excessive claims against the school for lost laundry.

2. Language Fee: Each student pays a language fee whether or not he is taking a language.
   Reason: The school needs more money.

3. Key Deposit: On the form attached to the tuition fee there was a clerical error stating that key deposit was covered by tuition.
   Reason: This was a clerical error. Mr. Christiansen: "This is not legally binding".

4. Crowded Rooms:
   Male: Some rooms are handling more people than origanally planned for.
   Reason: None given. Students wishing compensation for this should make an appeal through Mr. Christiansen.
   Female: Anticipated facilities are lacking. Any female student who has paid the sir-charge will be reembersed.

5. The price of books:
   Reason: School needs more money. List price is charged for all books. The school thus recieves approximately 30 % profit.

6. Bus service: Students have no bus services this year.
   Reason: 1) The cost of repair for damages to the buses last year was too much - $9,000.
   2) The cost for operation this year would be $21,000.
   SOLUTION: For the above mentioned reasons the Board of Directors of Saint Leo discontinued bus services.

7. FOOD: The grievances concerning quality and quantity.
   REASON: 1) inflation (15%) over last year.
   2) Authorities do not know what students want to eat.
   Mr. Christiansen's Suggested Solution:
   Form a food committee to formulate suggested menus.

Respectfully submitted,

Nicholas DiCerbo
Robert Quinn

INTRAMURAL Gridiron Action

In this weeks "intramural football" action, six teams maintained unblemished, undefeated standing. There is a tie for the first place slot between the Chargers and the Patriots of the Roderick Division. Both leading teams boast 3 wins and no losses. Five teams are tied for second place. They are the Dolphins and the Chiefs of St. Leo-Carmel-St Charles Division, the 49er's of the Benoit-Omega Division, and the Indians of the St. Edward Division. The play this week was more organized than it has been all year. The top teams have been displaying set running and passing plays. The competition next week will be much keener... winners will be playing winners. Something has to give somewhere.

If you want to change the world, it takes a little application.

PUBLISHED AS A PUBLIC SERVICE IN COOPERATION WITH THE ADVERTISING COUNCIL

IF FIRE STRIKES

A special message from the Security Office concerning fire.

1. Warn others to get out of the building or area.
2. Give the alarm--Call Dade City Fire Department at 567-2121 San Antonio Fire Department 588-3581 or 588-4361 or Pasco Sheriffs office at 567-5131. These numbers should be recorded and kept near every phone on campus. Speak slowly and plainly--give the location and the extent of the fire. Then, wait to answer any questions.
3. If the fire is still small, use an extinguisher on it.. Stay low (out of heat and smoke). Use a sweeping motion from the edge inward and the bottom upward. Stay out of confined places and if the fire gets bigger--get out and close all doors behind you!
4. Remember, a scream or smell of smoke can create panic. Keep 'cool'. Avoid the crowd, look for alternate Fire Exits. If smoke thickens, stay low- close to the floor. If lights go out, follow along a wall, until you feel a doorway. If your escape is blocked, close doors behind you to hold back the fire.

IF YOU ARE IN YOUR BED AND SMOKE IS HEAVY

1. Roll out of bed to the floor--less smoke there. Cover your nose with a cloth if you can. DO NOT STAND UP.
2. Crawl to the window. Open or smash it if you have to.
3. Lean out and breathe--Do not jump!

But--if there is still time for other escape--feel doors--if hot, do not open. Open any door cautiously--be ready to slam it shut. Remember, one breath of super heated air can kill!

IF A PERSON IS ON FIRE

1. Be fast--get him down on the ground or floor. Smother flame to prevent severe burns by rolling him in a blanket, rug or coat or just rolling on the ground can snuff out flame.

FIRST AID FOR BURNS

1. Be careful--remove clothing from the charred area. If it sticks, leave it alone--wrap it around the burned area, with a clean cloth (dry) sheet or towel.
2. Call a doctor fast! Keep victim calm, lying down and warm.

S. L. C. Karate Club To Host Tournament

On Nov. 5th the Saint Leo Karate Team will hold its first annual Karate Tournament. Teams from 5 states and Canada will participate.

Each team will consist of 7 men who will participate in 2 events. The first is free fighting, the winner being the man who inflicts 2 death blows on his opponent. When 4 men on the teams win their bouts, they become the winning team. The second type has to do with form. All 7 men must perform a set of movements in perfect unison. How well this is done will determine the winner.

The chief judge will be a sixth degree black belt from Canada with Mike Foster as an assistent judge.

Remember, only you can prevent forest fires.

Ed Tancig

CIRCLE K New on Campus

A new club has started on Saint Leo's campus. This club has completed in just one week what other clubs have taken months to develope. The club officers are Samuel Caprari, president; Wade Sanders, vice-president; Pierre La Fitte, secretary; and John Dux, treasurer. Father Fidelis, adviser to the club, says "it is going to show what a real service club is."

Circle K is an unique organization. It's uniqueness will be apparent after examining the following opportunities which Circle K has to offer to the colleges and universities, the students, the community and the nation.

Circle K is an opportunity for college man because it provides a means of leadership in a college community that service clubs are giving in the business and professional world:

-an opportunity for joint as well as individual participation in many activities for the service of humanity and for campus and community betterment.

-an opportunity for self-expression regarding the life of the campus community.

-an opportunity for self-developement: leadership, good citizenship, education and fellowship acquired through club meetings, through actual participation in civic programs, through lasting friendships, and through the association with outstanding representatives of the business, professional, agricultural and institutional life of the community in an atmosphere of friendliness, mutual helpfullness and service.

-an opportunity to serve and learn at the same time. Every man in a school of higher learning is preparing himself for life. Circle K augments this learning in a practical, interesting and effective manner.

STUDENT VIEWPOINT

Dear Editor,

I'm writing this letter in reference to the sophomore class dance last Saturday night, October 7th, in hopes of reaching those individuals which are involved in such situations and can prevent similar ones from occuring. What I am refering to is the conduct on the part of certain members of the student body.

I along with many others feel a dance should be a place to go to meet your friends and have a good time. It seems, however, that due to the immaturity and irresponsability of many students (which is accentuated by drinking) that such an activity is not possible. The question has often been asked as to why there is not a greater participation by the coeds in such activities. Perhaps it is because of this reason.

How can we be expected be treated like mature adults when we continue to display childish and irresponsible behavior?

How can we dispute campus freedoms when our present freedoms are constantly misused?

Anne Roberts

Dear Abbet

Ken and Frank

Dear Abbet,

Has G.S.R. gone N.B.(Milton Bradley)? What's with this new game "INTERROGATION" I know its easy to play! you just need one G.S.R. group. But a few kids don't know the rules and I thought I'd send them to you.

1. 20 college students are needed be they male, female or other.
2. Divide the sides into 5 defendants and 10 prosecutors The remaining five are alloted administrative positions.
3. The key man is the moderator; preferably a keen eyed cold hearted, dull witted individual who can handle any situation. Your friendly, warm-hearted quick thinking faculty advisor would be a logical selection.
4. No group can be without a secretary; whose lightning shorthand and brilliant memory can with ease capture any verbal accusations. Any illiterate person, even a freshman will do.
5. The socio-recorders task is to draw the conversations with the use of points and lines. This job should only be assigned to a fool, drunk or drug addict, a sophomore would be sufficient. At the end of the game, the best picture drawn by a socio-recorder wins, for him all expenses paid, two weekend vacations for two at the beautiful Dade City Detention Center.
6. Heading up the list of administrative positions is the analyst. This demented, deranged, totally incapacitated social outcast is soley responsible for the interpretation of the psychological insights found in the socio-recorders doodles. A prospective candidate would be any junior in your group.
7. Student discussion leader, this individual plays a minor part in the game acting more as a referee than a participant due to the heated discussion that often ensue. This player should be a large cumbersome, empty headed character preferably with a muscular build. A bewildered senior should be your choice.
8. The object of the game is to destroy the defendants moral and spiritual fiber through the relentless Interragation of the prosecutors.
9. The game begins when one of the 5 is accused of not participating in discussion. Immediately it is up to the other 4 to rush to his defense. A rapid exchange of accusations and denials are then hurled between the defendants and the prosecutors. This usually ter minates in the mental breakdown of the former, who have now been brainwashed into losing their individual and their personal freedom of refraining from speech. This brings the game to a close.

Well, that about wraps it up. Thanks for using this letter and I hope that you enjoy the game this Tuesday.

Parker Brothers

Dear Park,

Thanketh thee for thy rules of play but unto the defendants I give this divine insight; silence is golden.

Dear Senor Abbeet,

My name ees Juan Valdez. I ham the student at thees magnifico colleeg. I want to talk to you about thee language labortorio. Why must I go 5 hours a weeek? I ham reely vary intelegente hand I learn queeckly the language.

My senor teacher eenseests for me to go hand says hee will lower my grade eff I don't. Besides what deeferences does eet make eef "thee red crayon ees on the table,:"or "thee bathroom ees outside."

So maybe Senor Abbeet eef you talk to my German professor I won't have to go to the language lab anymore.

J. Valdez

Dear J.V.,

My heart bleedeth for thy plight and to thy instructor I say that "even he who knows it all did not send his deciples to a machine for something he himself could teach them.

FIREARM REGULATIONS

No student is permitted to have or to keep in his possession firearms of any description. This includes compressed air guns, bb rifles, and any firearms of similar nature.

Any student having a weapon on campus may register and store same at the Security Office.

Homemade Bomb ExplodesChemRoom

Johanna Petrocia

Who ever said St. Leo students aren't ambitious? Recently, one over-energetic Organic-Chemistry enthusiast heated nitro-bromo benzene and came up with her own homemade bomb. The incident set off a chain reaction of damaged plumbing, a broken test tube, and one burned teacher. To the regret of science but for the welfare of all involved, she never got to finish the experiment.

New Grant From Foundation

Saint Leo College has been allocated $48,000 by the Selby Foundation of Sarasoto to help defray the cost of construction of a demonstration auditorium in the new science building.

The auditorium will be named for William G. and Marie Selby.

Kappa Alpha Sigma to Choose Co-Ed

Tuesday evening, the brothers of KAPPA ALPHA SIGMA attended an annual mass in rememberance of Joe Rall and Joe Burger, our deceased brothers.

Rushees are reminded that Sunday night October 20 and Wednesday night November 1 are the dates for our smokers. The time and place will be posted at a later date. All Rushees invited..

Last week the brothers donated blood to the Pasco County Memorial Hospital. They plan on continuing this practice in the future.

The brothers are in the process of choosing the KAPPA ALPHA SIGMA Sweetheart of 1967-68. The results should be announced within the next few weeks.

A SPORT FOR EVERYONE

by David Preller

Saint Leo College Campus has become enveloped in sports again this year.

In the first week of school, the soccer team began practicing for the up coming year with the Karate team, now in its second year, following suit. Both teams have already experienced official competition this season.

The Basketball team has been running and lifting weights now for the past two weeks in preparation for a season that will start in early December. Next spring the baseball season opens, but since September 15,1967 tryouts for the College Team have been in progress.

There is a new addition year with a cross county team working out on the college track. The tennis and golf teams have not initiated any practices or tryouts as of yet, but are making plans for their upcoming seasons. Even clubs have gone sports minded on campus, such as, the Sports Car Club and the Gun Club.

Finally comes the intermural season for the remaining students with football their goal at the present time.

There is a wide range of athletic interest on this campus and behind it stands a strong desire to win.

ON SPORTS

by Tom Truelson

Yesterday afternoon at precisely 3:25 P.M., the Red Sox dream came to an end, and the St. Louis Cardinals became the baseball champions of the world by defeating the Red Sox 7 to 2 in the seventh game of the 1967 World Series.

It was the brilliant pitching of Bob Gibson, the key hits of Roger Maris and the all round skills of Lou Brock that gave the Redbirds their 8th World Championship. Bob Gibson, a 3 game winner, struckout 26 and gave up only 3 runs in 27 innings. Lou Brock had 12 hits and broke a World Series record by stealing seven bases. Roger Maris was the series leading run producer with 7 RBI.

The Red Sox were not without their heroes. Jim Lonborg got bombed yesterday by giving up 7 runs and 10 hits in six inings, but in his previous two starts, allowed only one run and four hits in 18 inings. Carl Yastrzemski, Boston's Prince Valiant, had 10 hits including 3 home runs.

For the Cardinals, winning the World Series was not unusual. But for the Red Sox, playing in the World Series was a dream come true.

Diving Club Recondition Raft

St. Leo's newly organized Skin and Scuba Diving Club is presently developing into what may be the most exciting and interesting organizations on campus.

Moderator Fr. Joseph and his 12 Sea Lions are planning dive trips in the nearby locales. The purpose of diving in a group is to share thrilling water experiances together as a unit and to increase the knowledge of water safety.

Looking at home-base, Lake Jovita, the Sea Lions have already repaired the large raft, and will rope off a swin area in the near future.

We intend to bring in an instructor, and offer lessons in Scuba-Diving to all members. Our present officers are hard at work producing a well - rounded, well-disciplined and fun-filled Dive Club here at St. Leo.

Phi Theta Chi Tops Kappa Alpha Sigma

Last Sunday Phi Theta Chi defeated their distinguished opponents Kappa Alpha Sigma in their first game of the season. Both teams played a very tough game. Kappa Alpha Sigma jumped to an early lead, however Phi Theta Chi bounced back and fought to take a 14-6 decision. The fine quarterbacking of Bobby fair and the fine defensive playing of Bob Sully and Rich Mussman sparked the "Big Red" to their place at the top.

Phi Theta Chi would like to congratulate Kappa Alpha Sigma on a fine game, and wish them the best of luck in the future.

This Sunday Phi Theta Chi will take on the "Gators" of Sigma Beta. The "Big Red" will be looking for their second win as Sigma Beta will be looking for their first. Phi Theta Chi is continuing to strengthen both their offense and defense throughout the week in preparation for Sunday. The team is strengthening defensively and should look even better in the weeks to come.
